Ameda Platinum[®] Hospital-Grade Breast Pump

Our Ameda Platinum breast pump delivers the perfect combination of advanced technology and the time-proven benefits of the original SMB[™] breast pump.

Increased Cycle Range
30-80 cpm to help express more milk in less time.

Message Display
Indicates service is required or HygieniKit[™] Milk Collection System is not properly attached.

Improved Suction Control
Displays 30-250 mmHg shown in mom-friendly units of 1-100% suction for precision adjustability. VacuSense[™] Technology provides consistent suction for single and double pumping and varying altitudes.

Easy-to-Read LCD Screens
Moms can easily return to their own best settings day and night.

Timer
Makes following pumping protocols easier. Automatic shut-off after 60 minutes.

Attaches to Ameda Trolley
For safe, secure transport in clinical settings.

Rotating Internal Piston
The metal pump mechanism preferred by lactation professionals for its smooth feel, comfort and durability.

Built-in Dual Bottle Holders
Securely holds most standard bottles upright and milk bags or smaller containers by breast flange rims to help prevent spills.

Integrated Handle
For easy lifting.

Independent Speed and Suction Controls
Moms can customize their pump settings to their own body's response and achieve multi-phase pumping.

Soft Touch Control Panel
For easy cleaning and intuitive operation.

Ameda Platinum Hospital-Grade Breast Pump

Ameda Platinum Hospital-Grade Breast Pump

CustomControl™

During breastfeeding, a baby changes sucking speed several times to trigger an average of 3 to 4 milk ejections.¹ Like the breastfeeding baby, independent suction and speed controls make it possible for mothers to achieve a multi-phase experience. With CustomControl dual controls and greater adjustability, each mother can customize pump settings to her own body's response and "follow her flow" to find her own best setting every time.

¹ Ramsey, D. et al. Ultrasound imaging of milk ejection in the breast of lactating women. *Pediatrics*. 2004; 113: 361-367.

VacuSense Technology

An industry first, the Ameda Platinum Breast Pump is the only pump that adjusts internally every 1/2 second to ensure consistent suction levels when single or dual pumping and at different altitudes.

Proven Airlock Protection™

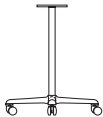

Ameda exclusive Proven Airlock Protection helps prevent contamination and simplifies pump care. Mold and bacteria can easily grow in pump tubing when moisture becomes trapped inside it. With Proven Airlock Protection, the solid diaphragm keeps the air from the pump from coming in contact with milk while pumping. Even if the milk container is turned on its side or upside down, moisture and milk aerosols will not enter the tubing or pump. With this solid barrier, there is no need to dry or clean the narrow tubing.

Ameda Trolley

- Convenient and mobile
- Fits all Ameda hospital-grade breast pumps
- Mounting kit ensures safe transport of breast pump between rooms

MOM INSPIRED. HOSPITAL TRUSTED.

Ameda Elite™ Hospital-Grade Breast Pump

With the Ameda Elite breast pump, pumping is less complicated. A new mother can focus less on pumping and more on what matters most, her baby.

Dual Adjustability

With separate dials, mothers can customize their pump settings to their own body's response.

Vacuum: 30-250 mmHg
Cycles: 30-60 cpm

Lightweight & Portable

Only 6.4 lbs, easy to transport.

Attaches to Ameda Trolley

Offers safe, secure transport in clinical settings.

Built-in Dual Bottle Holders

Securely holds most standard bottles upright and supports milk bags or smaller containers by breast flange rims to help prevent spills.

Carrying Bag

- Lightweight, soft carrying bag

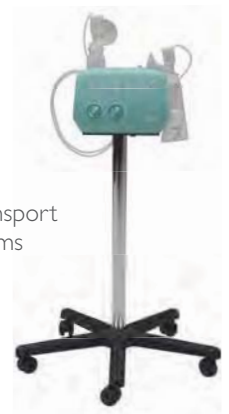

Pump Rental Kit

- Carrying Bag
- Ameda Dual HygieniKit™ Milk Collection System
- 2 Freezer Packs
- 2 extra bottles with lock-tight sealing lids

Ameda Trolley

- Convenient and mobile
- Fits all Ameda hospital-grade breast pumps
- Mounting kit ensures safe transport of breast pump between rooms

Ameda Elite Hospital-Grade Breast Pump

Ameda Elite Hospital-Grade Breast Pump

Greater Vacuum Adjustability

Research has found the closer mothers get to their highest comfortable vacuum, the greater their milk output.¹ The Ameda Elite changes only 1 to 5 mmHg with each dial adjustment, getting each mother closer to her ideal vacuum level for better milk flow.

Expresses Milk at All Cycle Settings

All of the Elite's cycle settings are effective at expressing milk. In fact, mothers even express measurable amounts of milk (an average of 10mL) before milk ejection.²

¹ Kent, J. et al. Importance of vacuum for breastmilk expression. *Breastfeed Med.* 2008; 3(1): 11-19.

² Ramsey, D. et al. The use of ultrasound to characterize milk ejection in women using an electric breast pump. *J Hum Lact.* 2005; 21(4): 421-28.

CustomControl™

The Elite's dual adjustability—or CustomControl—offers thousands of possible vacuum/cycle combinations, for the best results every time.

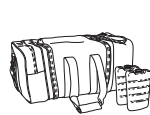

Proven Airlock Protection™

Used with the Elite, the Ameda HygieniKit Milk Collection System includes a silicone diaphragm that acts as a solid barrier to keep tubing dry by preventing air exchange between the expressed milk and pump tubing while pumping. Without this barrier, viruses and bacteria can easily grow in pump tubing where moisture becomes trapped inside it.

Personal Electric Breast Pumps

Personal Electric Breast Pumps

The Ameda Purely Yours® and Purely Yours Ultra™ personal electric breast pumps are ideal for mothers returning to work full time or for those who want a fast and easy pumping experience.

Purely Yours Ultra Double Electric Breast Pump

Purely Yours Ultra Pump with Custom Control™

Separate suction and speed dials allow for Custom Control. Dual adjustability lets the mother select the best levels for her milk flow and comfort, creating a multi-phase pumping experience.

Dual HygieniKit™ Milk Collection System with Proven Airlock Protection™

Proven Airlock Protection prevents airflow between expressed milk and pump tubing while pumping.

Ultra Tote

Cool'N Carry™

CustomFit™ Breast Flanges

The CustomFit Flange System™ offers seven flange sizes. Purely Yours Ultra features three of the most commonly used sizes.

Powered by AC adapter, car adapter or (6) AA batteries

Purely Yours Ultra models may include:

- Purely Yours Ultra Electric Breast Pump
- Dual HygieniKit Milk Collection System
- Ultra tote
- Large/Medium CustomFit Flanges (30.5mm/28.5mm)
- Cool'N Carry Breast Milk Storage System
- Manual pump adapter
- Car adapter
- Milk storage guidelines
- Sample freezer bags
- Pumping pad
- Drawstring storage bag
- Sample disposable nursing pads

Personal Manual Breast Pumps

Ameda manual breast pumps are an excellent choice for mothers who pump their breast milk no more than once a day.

One-Hand Breast Pump with Flexishield™ Areola Stimulator

- Ergonomic and compact manual pump earning the High Design-Innovation Quality Award from Design Zentrum Nordrhein-Westfalen Germany
- Pump directly into any standard milk storage bottle or freezer bag
- Allows mothers to achieve multi-phase pumping by varying handle squeezes for more milk flow
- Pump includes the Flexishield Areola Stimulator to help stimulate the let-down reflex

Breast Pumping Starter Kit

Everything needed to manually pump, store and transport collected breast milk conveniently packaged in an insulated lunch bag-style tote.

- Sterile One-Hand Breast Pump with Washable Nursing Pads, Lanolin sample and insulated Lunch-Style Tote

One-Hand Manual Breast Pump Adapter

For mothers who already have a HygieniKit™

- Converts HygieniKit Milk Collection System to One-Hand Manual Breast Pump

Hospital Discharge Kit

A simple kit for mothers to manually pump breast milk.

- One-Hand Breast Pump with Washable Nursing Pads and Lanolin sample

Cylinder Manual Breast Pump

This economical pump is one of the most effective two-handed pumps available.

- Graduated cylinder displays amount of milk pumped
- Easy to use and clean
- Reducing insert included for small nipples

HygieniKit™ Milk Collection Systems

Ameda HygieniKit Milk Collection Systems are designed to work specifically with all Ameda breast pumps. Our HygieniKit System has the world's only Proven Airlock Protection™ feature reducing risk and simplifying pump use and care.

- Proven Airlock Protection prevents air flow between expressed milk and tubing while pumping. Without the barrier mold and bacteria easily grow in breast pump tubing when moisture becomes trapped inside it. Its solid barrier keeps narrow pump tubing dry so no need to clean or replace it
- Sterile, pre-assembled and ready to use, reducing setup time
- Converts easily to a manual pump with One-Hand Breast Pump Adapter for more pumping options
- Pumps directly into any standard-thread bottle or milk freezer bag to reduce the risk of contamination from milk transfer
- Single or double pumping options to meet a mother's different needs
- All HygieniKit Systems attach the same way to all Ameda electric breast pumps, requiring less instruction and inventory

17449 Dual HygieniKit with CustomFit™ Flanges and One-Hand Manual Breast Pump Adapter

17449 shown includes:

- (2) 30.5 mm breast flanges
- (2) 28.5 mm inserts
- (2) 25.0 mm breast flanges
- (1) One-Hand Manual Breast Pump Adapter
- (2) Silicone diaphragms
- (2) 4 oz./120 mL bottles
- (4) White valves
- (2) Adapter caps
- (2) Silicone tubing
- (1) Tubing Adapter
- (2) Locking Rings
- (2) Locking Discs

Ameda HygieniKit Systems have many configurations available for single or double pumping, with accessories such as Flexishield™ Areola Stimulators, CustomFit™ Flanges and One-Hand Manual Breast Pump Adapters.

Flexishield Areola Stimulators

Reduce standard breast flange size (25.0 mm) to 21.0 mm for smaller nipples

CustomFit Flanges

Every mother needs a good breast flange fit for greater comfort and better milk flow

Breast Milk Storage

Breast Milk Storage

Ameda offers many options for collecting and storing breast milk. All milk storage products are made without BPA and are freezer-safe.

Store'N Pour™ Breast Milk Storage Bags

Pump directly into Ameda Store'N Pour Breast Milk Storage Bags using Ameda flange adapters, which easily attach to all Ameda HygieniKit™ Milk Collection Systems

Zip-Seal Bags 1
Closes easily and securely.

Unique Tear & Pour Spout 2
Helps prevent spills during milk transfer.

Gusseted Bottom 3
Allows a bag to stand on its own.

Freezer-Safe 4
Stores milk for future use.

5 Unique Flange Adapters
Easily attaches to breast flanges (Flange adapters included in the Getting Started Kit).

Available as a Getting Started Kit with 20 bags and 2 adapters or a refill box with 40 pre-sterilized bags

Breast Milk Storage Bottles

Ameda Breast Milk Storage Bottles with lock-tight sealing lids and universal threads are compatible with all Ameda breast pumps

- Safely stores 4 oz./120 mL of breast milk
- Dishwasher and freezer safe

Breast Pumping Accessory Kit

Contains the key essentials for any breast pumping mother

- 20 Store'N Pour Breast Milk Storage Bags
- 2 Flange Adapters
- 10 NoShow Premium™ Disposable Nursing Pads
- 4 Breast Milk Storage Bottles with lock-tight sealing lids
- 1 Breast Milk Storage Guidelines
- 1 Breast Milk Reference and Product Guide

Cool'N Carry™ Milk Storage Tote

Insulated storage tote for easy and discreet transport of collected breast milk

- Insulated carry bag
- 6 Breast Milk Storage Bottles with lock-tight sealing lids (4 oz./120 mL)
- 3 freezer packs
- Breast Milk Storage Guidelines

Baby Cup

Ideal for use with preemies and newborns

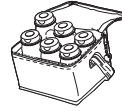

- Sterile
- Airtight cover protects milk
- Convenient, stackable 2 oz./60 mL cup

Breast Care

Breast Care

Ameda breast care products offer comfort, customization and convenience for breastfeeding mothers.

CustomFit Flange System™

Every mother needs a good breast flange fit for greater comfort and better milk flow

- Available in seven sizes
Up to 1/3 of mothers require a larger flange size¹
- Designed to work with all Ameda HygieniKit™ Milk Collection Systems and breast pumps

Flexishield Areola Stimulator shown

Large breast flanges and medium inserts shown

LARGE	30.5	Custom Breast Flanges (2) Custom Breast Flanges
X-LARGE	32.5	Custom Inserts (2) Custom Inserts Fits XX-Large Breast Flange 36.0 mm
XX-LARGE	36.0	Custom Breast Flanges (2) Custom Breast Flanges

NoShow Premium™ Disposable Nursing Pads

- Most absorbent when compared to other premium brands²
- Triangular shape discreetly fits neatly and stays inside most any bra style
- Available in 30 & 50 count

Washable Nursing Pads

- 100% natural cotton pads
- Machine washable
- Multi-layer construction draws moisture away from skin

ComfortGel™ Extended Use Hydrogel Pads

- A moist environment for optimal healing
- Pain relief on contact
- Soothes, cools and protects nipples
- Reusable for up to 6 days

Lansinoh HPA™ Lanolin

- 100% pure lanolin provides soothing relief for tender, sore nipples
- Available 2 oz., 0.25 oz. & 2cc sample
 - Hypoallergenic
 - Safe for mom and baby

DuoShell™ Breast Shells

- Backings with small holes to help draw out inverted nipples
- Backings with large holes to protect sore nipples

CottonRolls™ DuoShell Inserts

- Absorbs drip milk to help prevent leaking
- For use with Ameda DuoShell Breast Shells

ComfortPads™ DuoShell Liners

- Help soften shell to skin contact
- For use with Ameda DuoShell Breast Shells

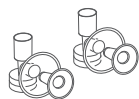

Nipple Shield

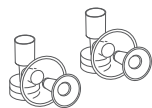

- Encourages baby's attachment to the breast
- Cushions sore or cracked nipples
- 24.0 mm opening

¹Wilson-Clay and Hoover 2005; Jones 2001.
²Tested by an independent, third-party lab.
