Dispositivi medici monouso per rettosigmoidoscopia

Disposable medical devices for rectosigmoidoscopy

CE

La prevenzione dei tumori rettali e la cura delle malattie infiammatorie intestinali è supportata anche dall'utilizzo di strumenti innovativi. La Sapi Med, in collaborazione con la scuola di proctologia dell'Università di Padova, ogni anno investe molte energie in ricerche e studi sempre più mirati al fine di offrire agli specialisti del settore presidi monouso e pluriuso di avanzata tecnologia.

Early diagnosis of colorectal cancers and other bowel diseases are made easier with this innovative range of plastic, single-use rectosigmoscopes from Sapi Med. Designed in co-operation with the proctology school of the University of Padova and other leading international institutions, the range includes a choice of different sizes of scopes with tough, hi-tech multi-use plastic grips. Designed for use with the versatile GLF100 cold light sources and fibre-optic cables.
