VisiClear™
Surgical Smoke Plume Evacuator

Procedure Operating Modes
One of three operating modes (Laparoscopic, Open Tubing, and Electrosurgical Pencil Mode) can easily be selected, automatically customizing filter life based on surgical procedure.

Advanced Sound Control Design
Whisper Technology™ ensures ultra-quiet operation with unprecedented sound quality.

Sleek Shelf Design
Ergonomically designed to accommodate stacking.

Occlusion Warning
Safety feature that alerts medical personnel when an occlusion has occurred.

Intuitive Color Touch Screen
Easy to use, requires minimal training, and can be operated with gloved hand.

Unique Sliding Port Closure
SafePort Technology™ ensures reduced risk of staff coming in contact with a contaminated port.

VisiClear®
Surgical Smoke Plume Evacuator

VisiClear® is our most advanced acute care offering for surgical smoke plume evacuation. Combining Safeport Technology™, an occlusion warning, filter life tracking, and one-touch programmable procedure modes for open tubing, electrosurgical pencil, and laparoscopic procedures, VisiClear effectively captures and filters surgical plume, removes odors, particulates and other potentially hazardous by-products.

SafePort Technology™

Touch screen

Display on / off

Footswitch port

Pneumatic footswitch (included)

The following accessories can be purchased separately for use with the ViroVac:

- EZLink™, an automatic activation device, can be used to remotely turn the evacuator on and off, saving filter life.

- ViroSafe® Fluid Trap is designed to capture fluids to help maintain the integrity of the filtration system and assist with maintaining filter life.

EZLink *(sold separately; part: EZLINK01)*

ViroSafe Fluid Trap *(sold separately; part: VSFT10)*
