

Icor Filters

Heat & Moisture Exchanger Filters

An efficient Heat & Moisture Exchanger for patients in ICU, theatre, during transportation and home care.

- Hygroscopic HME media
- Excellent moisture output
- Tidal volumes cover 5-1500ml
- Humidification to ventilated or spontaneously breathing patients
- Adult, pediatric and neonatal size
- ISO connectors for safety
- Small, easy and cost effective to use
- Integrated grids (to prevent foam from migrating from the housing)
- Latex Free
- Type 5 has attached Freeze-Flex for flexibility
- Type 7 has an integrated gas sampling port (comes with or without Soft-Flex)
