

LOOP ELECTRODE

Precise and Durable

- Single Use, Sterile
- 10 Units per Box
- Tungsten Wire for High Power Application
- Range of Most Popular Patterns and Sizes
- Packaged in Rigid Tray to Prevent Bending

LOOP ELECTRODE

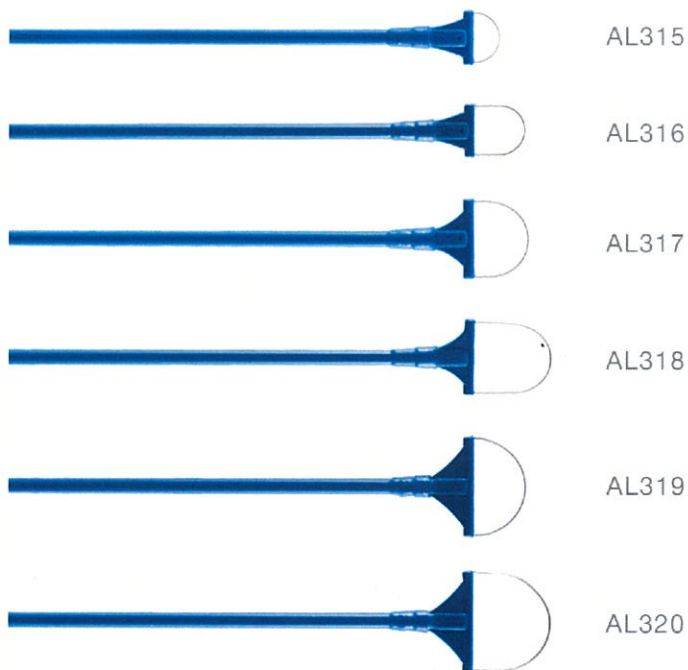

E Surgical Loop Electrodes come in sizes for all surgical needs. Made from tungsten to offer greater control and increased durability compared to stainless steel. Tungsten wire provides supreme resistance to breakage at higher power levels, while providing better control against flexing and bending during use. Single use loop electrodes eliminate reprocessing and cross-contamination concerns.

ORDER INFORMATION

CATALOG NO.	DESCRIPTION	LENGTH (inch)	PACKAGING	BOX QUANTITY
AL315	Electrode, Loop: 10 x 5 mm	134mm (5.26")	Sterile	10
AL316	Electrode, Loop: 10 x 10 mm	134mm (5.26")	Sterile	10
AL317	Electrode, Loop: 15 x 10 mm	134mm (5.26")	Sterile	10
AL318	Electrode, Loop: 15 x 15 mm	134mm (5.26")	Sterile	10
AL319	Electrode, Loop: 20 x 10 mm	134mm (5.26")	Sterile	10
AL320	Electrode, Loop: 20 x 15 mm	134mm (5.26")	Sterile	10

ACCESSORY
