

08.

- Sterile, individual pack
- 25ml or 70ml trap
- Attachment for suction catheter and suction connecting tube
- Patient details label
- Spare cap, screw fit

Mucus Specimen Traps

To collect mucus specimen for micro-biological examination.

MST-3000

MST-3070

MST-4000

Product Code	Capacity	Type	Qty Per Box
MST-3000	25ml	With spare screw cap	50
MST-3070	25ml	With reduced length connection to suction catheter to ease movement of secretions to the trap. With spare screw cap & patient label.	50
MST-4000	70ml	For use in bronchoscopy. With spare screw cap	50

- 20ml Trap
- With colour coded cap for easy identification of catheter size
- With standard funnel or vacuum control connector for attachment to suction source
- Spare cap, screw fit

Mucus Extractors

Mucus extractor designed to obtain mucus specimen for micro-biological examination with 33cm Catheter.

Without Vacuum Control Connector

Product Code	Qty Per Box	Catheter Size
ME-8108	75	8ch ø 2.66mm
ME-8110	75	10ch ø 3.33mm
ME-8112	75	12ch ø 4.00mm
ME-8114	75	14ch ø 4.66mm

With Vacuum Control Connector

Product Code	Qty Per Box	Catheter Size
ME-9108	75	8ch ø 2.66mm
ME-9110	75	10ch ø 3.33mm
ME-9112	75	12ch ø 4.00mm
ME-9114	75	14ch ø 4.66mm

- 25ml Trap
- 10ch or 14ch suction catheter
- Soft PVC, sterile, straight peel pouch

Safe-Ex Mucus Extractors

Unique, patented mucus extraction using the 'Safe-Ex' block filter device. Provides maximum protection for user by irreversible blocking on contact with any aqueous fluids such as mucus. Microbiologically & clinically tested. Easy to use, familiar standard system using mouth suctioning procedures.

With sample collection 25ml trap with extra screw cap for transport to the laboratory.

Product Code	Tray Capacity	Qty Per Box	Catheter Size
ME-7100	25ml	50	10ch ø 3.33mm
ME-7140	25ml	50	14ch ø 4.66mm
