

The Salter AIRE Elite is a durable, reliable and easy to use compressor. Aerosol delivery using the Salter AIRE Elite compressor combined with a Salter NebuTech® HDN® or Salter 8900 Series Small Volume Jet Nebulizer provides quick, efficient and convenient delivery of aerosolized medication.

**Features**

- Efficient aerosol delivery
- Solid state components, 5 year warranty
- Lightweight, compact
- Piston style compressor
- Quiet, low noise level
- Nebulizer docking port
- Matched compressor and nebulizer
- Latex Free

**Benefits**

- Shorter treatment time
- Durable and reliable
- Easy to carry, 1.8kg.
- Assures strong steady pressures and flows
- Provides unobtrusive treatment
- Added safety and convenience

**Salter AIRE Elite Compressor (230V)**

A lightweight, portable, quiet compressor for powering aerosol generating medication nebulizers. It is engineered for long term durability and cost effectiveness. The flow outlet fitting, fresh air inlet filter, and rocker style on/off switch are recessed to protect from accidental breakage. There is a convenient built in hand-grip for easy transport. A unique, tip proof nebulizer docking port is built into the case.
